LENDMATE VA TRAINING · CHEAT SHEET

AI ON CANADIAN MORTGAGE FILES.

All provinces except Quebec, plus YT, NT, NU. Rules checked 28 October 2026. Not legal advice. Your broker's rules always win. **LendMate VAs are not mortgage licensed and only do unlicensed tasks.**

1 · CHECK THE DATA BEFORE THE TOOL LENDMATE RULE

RED · STOP

Any private info: names, contact details, SIN, IDs, credit reports, income documents, deal details. **Never into a chat app.** No exceptions.

YELLOW · CONFIRM

AI notetakers and CRM AI (GHL, My Broker Pro). **Only in your broker's own account**, once your broker confirms that client consent covers it. Otherwise off.

GREEN · GO

No private info: templates, checklists, ad drafts, SOPs, general education. **Any tool.** Check every fact before it is used.

Two kinds of client data, both private: your broker's clients (B2C: borrowers) and your broker's own business (B2B: logins, client lists, lender details). Pasted something by mistake? Tell your broker straight away.

2 · NEVER DO THESE, WITH OR WITHOUT AI LAW

- Advise on whether a particular mortgage suits someone (BC, SK, NL)
- Assess a borrower for a lender (ON, BC, MB)
- Send borrower information to a lender (ON, BC, MB)
- Negotiate or arrange a mortgage (ON, BC, SK, MB, NL, AB)
- Solicit people to borrow on a mortgage (ON, BC, SK, MB, NL, AB)
- Take application info or pre-screen (NB)

If AI writes anything that does one of these, it goes to your broker. **Only your broker sends.** LENDMATE RULE

3 · 5-MINUTE CHECK

1. **Any private info in your paste?** If yes, stop. LENDMATE
2. **Training off?** ChatGPT: "Improve the model for everyone". Claude: "Model Improvement". Gemini: "Keep Activity". TOOL
3. **Don't rate chats.** Thumbs up or down can send the chat into training. TOOL
4. **Where does data go?** Fathom: US. HighLevel: may transfer abroad, incl. India. My Broker Pro: its pages conflict, Canada or US. TOOL
5. **Notetaker or CRM AI?** No broker confirmation, it stays off. LENDMATE

4 · RECORDING A CALL LAW

Notetaker only if your broker confirmed, before or during the call. Say it's recorded and why, as narrowly as you can. Offer to continue without recording. One party's consent is legal under the Criminal Code, but privacy law still needs the notice.

"This call is recorded and transcribed so [purpose]. Is that OK? We can also continue without recording."

5 · WHAT YOU CAN DO WITH AI LENDMATE RULE

- **Docs:** blank checklists, reminder templates, file naming
- **Underwriting:** blank templates, public lender page summaries
- **Comms, CRM:** blank follow-ups, tone edits, workflow text
- **Marketing:** drafts for broker approval, no misleading claims, licence details, CASL consent and unsubscribe
- **Admin:** SOPs, agendas, formulas, learning a tool
- **Never:** credit bureau or lender portals (a human clicks), lender submission notes
- **Better prompts:** who it is for, what you want, length, tone, one example. **Limit hit?** Wait or start a new chat; never move private info to another tool.

6 · PROVINCE AND TERRITORY FLAGS LAW

ON	Any other use of client info needs written consent. Records 6+ years after the term ends.	**BC**	New Act from 13 Oct 2026. Records kept in BC, brokerage control, 7+ years.
AB	Clients must know you are unlicensed. Broker gives the offshore notice (PIPA s.13.1).	**SK**	No staff exemption: "as an employee or otherwise".
MB	Only Act with a clerical staff exemption, for clerical duties only.	**NB**	Application intake is licensed. Keep notes of key client calls.
NS	No pay to unlicensed people for licensed work. Act definition not yet read.	**NL**	New Act since 1 Apr 2025. Check regulations before relying on any exemption.
Rest	PE, YT, NT, NU: no licensing statute found. Follow section 2 anyway. PIPEDA and FINTRAC apply.		

WHEN IN DOUBT: STOP. STRIP IT. ASK YOUR BROKER.

AI can make mistakes. Always check its output. Never let AI do the whole job.

Law = statute, regulation or regulator guidance. LendMate rule = house policy. Tool = what the vendor says, re-check before use. Every rule traces to research/sources.md in the LendMate AI Training folder.
