LENDMATE VA TRAINING · SELF-LEARNING GUIDE

AI on Canadian mortgage files.

Read this before you book a live session. Then take the gate quiz.

How this works

1. Read this guide. It covers the rules: deck slides 1 to 17, 38 and 39.
2. Take the gate quiz (15 questions). Link: [quiz link]. Pass mark: 70% (11 of 15). Unlimited tries.
3. If you pass, you can join a live session. If not, read the guide again and retake the quiz.
4. The live session shows you how to do the work with AI: VA tasks, automations, tool and account checks, prompting (deck slides 18 to 37). It ends with a short check (8 questions).

Read these first

- This is not legal advice. It was built from public sources and reviewed by the LendMate team, not a lawyer. Rules were checked on 28 October 2026.
- Tags: LAW a statute, regulation or regulator guidance. LENDMATE RULE our house policy, set by the LendMate team. TOOL POLICY what a vendor says on its own site.
- No private info goes into any chat app. This is a LendMate rule, stricter than the law.
- When in doubt: Stop. Strip it. Ask your broker.
- Session date and format: [team to confirm].

The guide, slide by slide

Each block matches a slide in the deck, so you can look at the deck beside it.

SECTION: WHY AI RULES MATTER FOR A LENDMATE VA

Slide 1 AI on Canadian mortgage files.

ON THE SLIDE

LendMate VA Training · AI on Canadianmortgage files. · What you may and may not do with AI. All provinces except Quebec, plus Yukon, Northwest Territories and Nunavut. · RULES CHECKED 28 OCTOBER 2026 · NOT LEGAL ADVICE

WHAT TO KNOW AND WHY

This guide covers how LendMate VAs use AI tools when working on files for Canadian mortgage broker clients. Scope: every province except Quebec, plus the three territories. Every rule carries a tag: LAW (a statute, regulation or regulator guidance), LENDMATE RULE (our house policy) or TOOL POLICY (what a vendor says on its own site). The source ID for each rule matches research/sources.md. Full source links are on the last slides of the deck.

Slide 2 Not legal advice.

ON THE SLIDE

Before we start · LAW · Written in a statute, a regulation or a regulator’s guidance. The source ID is in the speaker notes. · LENDMATE RULE · Our own house policy, set by the LendMate team. Where it is stricter than the law, the slide says so. · TOOL POLICY · What an AI vendor says on its own website. These change often, so check them on the day. · Laws change. These rules were checked on 28 October 2026. When unsure, stop and ask your broker.

WHAT TO KNOW AND WHY

this deck was built from public sources and reviewed by the LendMate team, not by a lawyer. It explains what the rules say; it does not replace the broker’s own compliance advice. Three tags appear on every rule. LAW means a statute, regulation or regulator guidance, with a source ID that matches research/sources.md. LENDMATE RULE is our house policy. TOOL POLICY is what a vendor publishes about its own product, and it can change at any time. If anything in this deck conflicts with what a broker client tells you, follow the broker and flag it to the LendMate team.

Slide 3 Your broker carries the risk.

ON THE SLIDE

Why this matters · The broker stays accountable · Under PIPEDA, an organization is accountable for personal information it sends to a third party for processing. When you process a client’s files, that third party is you. · LAW · F6 · The data leaves Canada · You work from the Philippines. PIPEDA allows that, but clients must be told their information may be processed in another country. · LAW · F10 · The AI is never accountable · “Accountability for decisions rests with the organization, and not with any kind of automated system.” · LAW · F5

WHAT TO KNOW AND WHY

Three points. One: PIPEDA Schedule 1, clause 4.1.3. An organization is responsible for personal information it transfers to a third party for processing, and must use contracts or other means to keep a comparable level of protection (F6). Two: the OPC’s 2009 guidelines on processing across borders. PIPEDA does not prohibit sending data outside Canada, but the sending organization stays accountable and must make it plain that information may be processed in a foreign country and may be accessible to that country’s authorities (F10). Three: the joint federal, provincial and territorial principles on generative AI, Principle 5 on accountability (F5). The quote on the slide is from that document. Takeaway for the VA: anything you do with an AI tool is legally the broker’s responsibility, which is why the broker’s rules always win.

Slide 4 Two kinds of client data.

ON THE SLIDE

Whose data is it? · Your broker's clients (B2C) · Borrowers and buyers: names, contact details, SIN, IDs, income documents, credit reports, deal details. · The broker is accountable. You are their processor. · Used only for the purpose it was collected for. · Kept confidential, in the places the law says. · LAW · F6 · C-ON5 · C-BC7 · C-AB3 · Your broker's business (B2B) · Our client, the broker: their logins, systems, client lists, pipeline, lender details and internal documents. · Treated like their clients' data: private. · Stays in the broker's own accounts and systems. · Their policy comes first. It can be stricter than ours. · LENDMATE RULE · For both: no private info in any chat app. If something is pasted, sent or shared by mistake, tell your broker straight away.

WHAT TO KNOW AND WHY

LendMate works for two layers of clients. Our client is the mortgage broker (B2B). The broker's clients are borrowers and buyers (B2C). Both layers of data are private, and the VA is the third party handling it. Left card, B2C, all LAW: PIPEDA says the organization stays accountable for personal information it sends to a third party for processing (F6), and the regulators say the organization, not the tool, is accountable (F5). Ontario brokerages may not use client information for any other purpose without written consent (C-ON5, O. Reg. 188/08 s.57). BC and Alberta require client confidentiality (C-BC7, C-AB3). Where records are kept is covered on the province slides: BC records stay in BC and under the brokerage's direct control, Ontario records stay at the brokerage's premises, Alberta records at its Alberta office. Right card, B2B, is a LendMate rule, not law: no statute we researched covers a broker's own business information. The LendMate team confirmed on 2 November 2026 that it is handled exactly like the borrowers' data: private, never into a chat app, and only in the broker's own accounts. The bottom line is also a confirmed LendMate rule: if something private is pasted, sent or shared by mistake, tell the broker straight away. The broker, not the VA, decides what has to be reported and to whom; PIPEDA and the BC and Alberta rules have breach and loss reporting duties that sit with the organization or brokerage (F9, C-BC5, P3).

Slide 5 No AI law covers this work. Yet.

ON THE SLIDE

The legal picture · Date | What happened · 7 Dec 2023 | Canada's privacy regulators publish principles for generative AI. Guidance, not law. · 6 Jan 2025 | Bill C-27 dies without Royal Assent. It held AIDA, the proposed AI law. · 15 Jun 2026 | Bill C-36, a new federal privacy law, is introduced. Now at second reading. Not law. · 1 May 2027 | OSFI Guideline E-23 starts. It covers AI models at federally regulated lenders, not brokers. · So the rules you follow come from privacy law and mortgage licensing law.

WHAT TO KNOW AND WHY

Sources: F1, OPC principles for generative AI, issued 7 December 2023, guidance only. F24, LEGISinfo for Bill C-27 (44th Parliament, 1st session): final status "At consideration in committee in the House of Commons", no Royal Assent, session ended 6 January 2025. AIDA was part of that bill. F22, LEGISinfo for Bill C-36 (45-1): introduced 15 June 2026, status "At second reading in the House of Commons". It may have moved since 28 October 2026. F20, OSFI Guideline E-23 (2027): effective 1 May 2027, applies to federally regulated financial institutions, and its definition of a model includes AI/ML methods. It does not apply to brokers directly; we found no source on whether lenders pass its requirements down to brokers (F21, not found). Takeaway: no AI-specific statute exists, so the training is built on privacy and licensing law that already applies.

SECTION: THE RULE STACK AND WHICH PRIVACY LAW APPLIES

Slide 6 Five layers. The strictest wins.

ON THE SLIDE

The rule stack · 1 · Federal law. PIPEDA for privacy, FINTRAC for anti-money laundering, CASL for commercial emails and texts. · 2 · Provincial privacy law. Alberta PIPA and BC PIPA apply inside those provinces. · 3 · The mortgage regulator. Who needs a licence, how records are kept, what ads must say. · 4 · Tool settings. Whose account is it, and is it training on your data? · 5 · Your broker's own policy. It can be stricter than everything above. · LENDMATE RULE · WHEN TWO LAYERS DISAGREE, FOLLOW THE STRICTER ONE

WHAT TO KNOW AND WHY

Layer 1: PIPEDA applies to private-sector organizations across Canada in commercial activity (F11). FINTRAC obligations apply to mortgage brokers, administrators and lenders from 11 October 2024 (F13). CASL sets the rules for commercial electronic messages (F18). Layer 2: Alberta and BC have their own private-sector privacy laws, deemed substantially similar to PIPEDA (F12). Inside those provinces they generally replace PIPEDA; information that crosses provincial or national borders stays under PIPEDA (F11). Layer 3: each province's mortgage law, covered in the jurisdiction cards. Layer 4: vendor settings, covered in the account check. Layer 5: the broker client's own rules. "Follow the stricter one" is a LendMate house rule, not a legal requirement.

Slide 7 It depends where the client is.

ON THE SLIDE

Which privacy law · Where | Privacy law | Watch for · Alberta | Alberta PIPA | Notice to clients when a service provider outside Canada handles their data · British Columbia | BC PIPA | Under the mortgage rules, lost records must be reported to the superintendent · ON, SK, MB, NB, NS, PE, NL | PIPEDA | No provincial law deemed substantially similar to PIPEDA · Yukon, NWT, Nunavut | PIPEDA | Organizations there are "considered federally regulated" · Data crossing any border | PIPEDA | Applies everywhere, including Alberta and BC · LAW · F11 · F12 · P2 · C-BC5

WHAT TO KNOW AND WHY

F12: the OPC lists only Alberta, BC and Quebec as having general private-sector privacy laws deemed substantially similar to PIPEDA. Ontario, New Brunswick, Newfoundland and Labrador and Nova Scotia have substantially similar laws for health information custodians only, which is not our work. F11: the OPC says organizations in the Northwest Territories, Yukon and Nunavut are considered federally regulated, so PIPEDA covers them, and that businesses handling personal information that crosses provincial or national borders are subject to PIPEDA. Every LendMate file crosses a national border, because the VA is in the Philippines. P2: Alberta PIPA section 13.1 requires the organization to notify the individual, before or at the time of transfer, of how to get its policies on service providers outside Canada and who can answer questions. That is the broker's notice to give, not the VA's. C-BC5: BC Mortgage Services Rules s.109(2), immediate written notice to the superintendent if records are lost or improperly accessed. BC PIPA itself has no mandatory breach notification (P1).

Slide 8 Five principles to work by.

ON THE SLIDE

What privacy regulators expect from AI users · 1 · Only put personal information into a prompt where authorised. · 2 · Use anonymized or de-identified information where possible. · 3 · What the AI infers about a person is personal information too. · 4 · Check AI output is accurate, especially when it feeds a decision about a person. · 5 · The organization is accountable, never the tool. · LAW (REGULATOR GUIDANCE) · F2 TO F5

WHAT TO KNOW AND WHY

These five lines come from the joint principles for generative AI issued 7 December 2023 by the OPC with the provincial and territorial privacy regulators. The document is guidance on how existing privacy law applies; it is not a statute (F1). Exact wording behind each line. 1 (F2, Principle 7): “Where personal information (and, in particular, sensitive or confidential information) must be entered into a prompt, only do so where authorised.” 2 (F2): “Where possible and reasonable, use anonymized or de-identified information within prompts.” 3 (F3): “Treat any inferences generated about an identifiable individual as personal information.” 4 (F4, Principle 8): take reasonable steps to ensure outputs are accurate as necessary for the purpose, especially if used to make or assist in decisions about individuals. 5 (F5, Principle 5): “Accountability for decisions rests with the organization, and not with any kind of automated system.” What “authorised” means for you: your broker has approved it.

SECTION: THE LICENSED-ACTIVITY LINE

Slide 9 Some admin tasks are licensed work.

ON THE SLIDE

The line · LendMate VAs are not mortgage licensed and only do unlicensed tasks. If a task needs a licence, it goes to your broker. Using AI doesn’t change that.

WHAT TO KNOW AND WHY

LendMate position, confirmed by the LendMate team on 28 October 2026: LendMate VAs are not mortgage licensed, only do unlicensed activities, and no current VA task sits on the licensed side. Anything on the licensed side is for the licensed broker. This is the most important idea in this training, and it is not really about AI. In several provinces, tasks that sound like admin are defined in the law as mortgage brokering, and only a licensed person acting for a brokerage may do them for pay. The next two slides list them. AI matters here because AI tools will happily draft advice, qualification wording or lender submissions when asked, which makes it easy to cross the line without noticing.

Slide 10 What only a licensed person does.

ON THE SLIDE

The line · Task | Licensed activity in · Advise on whether a particular mortgage suits someone | BC, SK, NL · Assess a borrower on behalf of a lender | ON, BC, MB · Send information about a borrower to a lender | ON, BC, MB · Negotiate or arrange a mortgage | ON, BC, SK, MB, NL, AB · Solicit people to borrow on a mortgage | ON, BC, SK, MB, NL, AB · Take mortgage application information or pre-screen | NB · Only Manitoba's Act exempts clerical staff. Ontario and Saskatchewan say "as an employee or otherwise". The task decides, not your job title.

WHAT TO KNOW AND WHY

Every cell is from the statute or regulator text. Ontario MBLAA s.2(1): soliciting, providing information about a prospective borrower to a prospective lender, assessing a borrower on behalf of a lender, negotiating or arranging (C-ON1); s.2(3): no individual may deal in mortgages for remuneration, "as an employee or otherwise", without a licence (C-ON2). BC Mortgage Services Act s.1 adds providing advice about entering into a particular mortgage contract (C-BC2); s.4 has no exemption for brokerage staff (C-BC3). Saskatchewan s.2(4): soliciting on behalf of another, negotiating or arranging, advice on the appropriateness of a particular mortgage loan; s.5(3) "as an employee or otherwise" (C-SK1). Manitoba s.1: soliciting, providing information about a prospective borrower to a lender, assessing a borrower for a lender, arranging or placing mortgages (C-MB1); s.2(2) exempts office staff in clerical, accounting or caretaking duties not otherwise in mortgage business (C-MB2). Newfoundland and Labrador s.2(2): soliciting, negotiating or arranging, advice on the appropriateness of a particular mortgage (C-NL1). Alberta Real Estate Act s.1(1)(r): solicits, negotiates, collects payments or administers (C-AB1). New Brunswick: FCNB guidelines say taking mortgage applications or pre-screening referrals requires a licence (C-NB1). Gaps: the Nova Scotia Act definition could not be read (C-NS3). No licensing statute was found for PEI or the territories. A blank in this table is not permission.

Slide 11 AI drafts. Your broker decides.

ON THE SLIDE

The line, with AI · AI may draft, for your broker to review · Blank deal summary templates · Blank follow-up templates · Blank document checklists · No private info goes in. See the traffic light. · Never send it yourself · Anything that recommends a mortgage or product · Anything that says a borrower qualifies · Anything that goes to a lender · Anything that negotiates rates or terms · LENDMATE RULE · BUILT ON THE LICENSING LAWS ON THE PREVIOUS SLIDE

WHAT TO KNOW AND WHY

This is a LendMate house rule. It applies the licensing definitions from the previous slide to AI output. The right-hand column maps to the licensed activities: recommending a product is advice (BC, SK, NL), saying a borrower qualifies is assessing (ON, BC, MB), sending to a lender is providing borrower information to a lender (ON, BC, MB), negotiating terms is negotiating or arranging (most provinces). The left-hand column is drafting that a licensed broker reviews and sends. No private information goes into the tool, so these are templates the broker or VA fills in outside AI. Example: an AI tool drafts a message to a borrower saying they look approved. Nobody sends it until the broker reviews it, and the broker sends it.

SECTION: THE DATA TRAFFIC LIGHT

Slide 12 Check the data before the tool.

ON THE SLIDE

The data traffic light · Red · Stop · Any private info: names, contact details, SIN, IDs, credit reports, income documents, deal details. · Never into a chat app. No exceptions. · Yellow · Confirm · AI notetakers and CRM AI, such as GHL and My Broker Pro. · Only in your broker's own account, once your broker confirms that client consent covers it. Otherwise off. · Green · Go · No private info: templates, checklists, ad drafts, SOPs, general education. · Any tool. Check every fact before it is used. · LENDMATE RULE · STRICTER THAN THE LAW

WHAT TO KNOW AND WHY

The traffic light is a LendMate house rule, set by the LendMate team on 30 October 2026. No law sorts data into these colours, and no law we found bans all personal information from AI tools. The regulators' principles say to enter personal information into a prompt only where authorised, and to use de-identified information where possible (F2). LendMate goes further on purpose: no private information in chat apps at all. Never tell a client that the law bans it. Yellow is the one narrow exception, for tools that handle private information by design. It needs the broker's own account and the broker's confirmation that client consent covers it. Consent is never assumed. Green is anything with no private information in it; facts and ad rules still apply.

Slide 13 Why red data stays out.

ON THE SLIDE

Red data · Stop · The rule | Source · Regulators: only put personal information into a prompt where authorised. LendMate goes further: none in chat apps. | LAW · OPC · LENDMATE RULE · Income records are "almost always considered to be sensitive". | LAW · PIPEDA 4.3.4 · Ontario brokerages can't use client information for any other purpose without the client's written consent. | LAW · O. Reg. 188/08 s.57 · BC and Alberta mortgage rules require client confidentiality. | LAW · MSA Rules 38(e) · RECA Rule 44 · ID checks follow FINTRAC's methods. Under the photo ID method, a scan alone doesn't count. | LAW · FINTRAC · Credit bureau and lender portals need a human to click. AI never pulls, reads or uploads a credit report. | LENDMATE RULE

WHAT TO KNOW AND WHY

Row 1, F2 plus LendMate rule: the law says "only where authorised"; the full ban on private information in chat apps is LendMate's own stricter rule, not law. Row 2, F7: PIPEDA Schedule 1 clause 4.3.4 says some information, for example medical records and income records, is almost always considered to be sensitive. T4s, NOAs, pay stubs and bank statements are income records. Row 3, C-ON5: Ontario O. Reg. 188/08 s.57, a brokerage shall not use information obtained in the course of business for any other purpose without the written consent of the person it is about. Row 4, C-BC7 and C-AB3: BC Mortgage Services Rules s.38(e) and 39(4)(b), maintain client confidentiality and do not disclose confidential client information unless the client authorizes it or the law requires it; RECA Rule 44(1) and 44(2)(a), no disclosure of client information without authorization, and mortgage brokerages must have policies to protect personal and confidential information. Row 5, F15: FINTRAC's guidance on methods to verify identity. Government photo ID must be authentic, valid and current; a fax, photocopy, scan or electronic image counts only as one source under the dual-process method. An agent may verify identity only under a written agreement with the brokerage, which stays responsible. Row 6, LendMate rule set by the LendMate team on 29 October 2026: any action in a credit bureau or lender portal is done by a human, never by an AI tool. The bureau and portal contract terms are private and were not researched (E1).

Slide 14 Yellow means your broker confirmed.

ON THE SLIDE

Yellow · Notetakers and CRM AI · 1 · Their account · Your broker's own account. Never a personal or LendMate account. · LENDMATE RULE · 2 · Confirmed · Your broker confirms that client consent covers the tool. Never assume it. · LENDMATE RULE · 3 · Notices · Recorded calls still need the notice and a choice. In Alberta, the broker gives the offshore notice. · LAW · F17 · P2

WHAT TO KNOW AND WHY

Yellow covers tools that handle private information by design: AI notetakers on client calls and AI features inside GHL or My Broker Pro. Steps 1 and 2 are LendMate house rules. The broker collects client consent, so LendMate cannot confirm it from our side, and consent to a mortgage application may not cover AI. Until a broker confirms, these tools stay off for that broker's clients. Step 3 is law. OPC guidance on recording calls requires notice and a choice (F17). Alberta PIPA s.13.1 requires notice when a service provider outside Canada handles personal information (P2); that notice is the broker's to give. Ontario O. Reg. 188/08 s.57 requires written consent to use client information for any other purpose (C-ON5). My Broker Pro's published terms don't cover AI, and its pages conflict on where data is hosted (D9).

Slide 15 Green still needs a fact check.

ON THE SLIDE

Green data · Go · The rule | Source · Check every fact AI writes before anyone sees it. | LAW · OPC AI principles · No false or misleading claims to the public. | LAW · Competition Act 74.01 · Ontario: public materials show the agent's name plus the brokerage's name and licence number. | LAW · O. Reg. 187/08 s.8 · Alberta: the brokerage name must be clearly shown. | LAW · RECA Rule 65(b) · Commercial emails and texts need consent, sender details and an unsubscribe. | LAW · CASL s.6 · Your broker approves anything before it is posted. | LENDMATE RULE

WHAT TO KNOW AND WHY

Green means no personal information, not no rules. Row 1, F4: the OPC principles ask organizations to take reasonable steps to make sure AI outputs are accurate enough for their purpose. Row 2, F19: Competition Act s.74.01(1)(a), a representation to the public that is false or misleading in a material respect is reviewable conduct; 74.01(1)(b) covers performance claims not based on an adequate and proper test. Row 3, C-ON6: Ontario O. Reg. 187/08 s.8(1), all public relations materials must clearly and prominently disclose the licensee name and the brokerage's authorized name and licence number; s.9 bans false, misleading or deceptive information. Row 4, C-AB4: RECA Rule 65(b), the brokerage must ensure its name is clearly indicated in the course of dealing in mortgages. Row 5, F18: CASL s.6, a commercial electronic message needs consent, prescribed sender identification, contact information and an unsubscribe mechanism; electronic messages include text, sound, voice and image messages. Ad rules for other provinces were not researched for this deck; ask the broker.

SECTION: PROVINCE AND TERRITORY RULES AT A GLANCE

Slide 16 Same line, different details.

ON THE SLIDE

Province rules at a glance · 1 of 2 · Where | Law | Staff exemption | Records | Watch for · ON | Mortgage Brokerages, Lenders and Administrators Act · FSRA | None found: “as an employee or otherwise” | 6+ years after the term ends | Other uses of client info need written consent · BC | Mortgage Services Act, from 13 Oct 2026 · BCFSA | None for brokerage staff | In BC, brokerage’s control, 7+ years | Report lost records to the superintendent in writing · AB | Real Estate Act and RECA Rules | Assistants allowed, never for licensee-only tasks | At the brokerage’s Alberta office | Clients must know you are unlicensed. Offshore notice · SK | Mortgage Brokerages and Mortgage Administrators Act · FCAA | None found: “as an employee or otherwise” | Period in regulations, not checked | Associates are supervised by a broker · MB | The Mortgage Brokers Act · Manitoba Securities Commission | Yes: clerical duties only | Not checked | Only Act with a clerical exemption · LAW · C-ON1 TO C-ON6 · C-BC1 TO C-BC7 · C-AB1 TO C-AB4 · P2 · C-SK1 TO C-SK3 · C-MB1 · C-MB2

WHAT TO KNOW AND WHY

Licensed tasks are on the licensed-tasks slide and privacy laws are on the privacy map, so this table covers only what differs. Ontario: MBLAA s.2(3) licence needed “as an employee or otherwise” (C-ON2); O. Reg. 188/08 s.40 supervision (C-ON3), s.46 to 48 records, kept at least six years after the term expires (C-ON4), s.57 written consent for any other use (C-ON5). FSRA guidance on AI or unlicensed assistants: none found (C-ON7). BC: Mortgage Services Act and Rules effective 13 October 2026 (C-BC1); s.4 exemptions do not include brokerage staff (C-BC3); s.32 records kept in BC (C-BC4); Rules s.107 to 110, direct control, loss reported in writing, at least seven years (C-BC5). Whether cloud storage outside BC meets s.32 is unanswered (C-BC6). Alberta: Real Estate Act s.17 and s.1(1)(r) (C-AB1); RECA Rule 46 assistants trained, supervised and known to be unlicensed (C-AB2); Rule 44 confidentiality (C-AB3); Rule 105 records (C-AB4); PIPA s.13.1 offshore notice, which the broker gives (P2). Saskatchewan: s.5(3) (C-SK1), associates supervised (C-SK2), s.35 records for the prescribed period; the regulations were not read (C-SK3). Manitoba: s.2(2) exempts office staff in clerical, accounting or caretaking duties not otherwise in mortgage business (C-MB2). It covers clerical duties, not the licensed tasks. Records were not checked.

Slide 17 Atlantic Canada and the territories.

ON THE SLIDE

Province rules at a glance · 2 of 2 · Where | Law | Staff exemption | Records | Watch for · NB | Mortgage Brokers Act · FCNB | Not confirmed: Act wording not read | Keep notes of key client communications | Application intake is licensed work · NS | Mortgage Regulation Act and regulations | None in the Exemption Regulations | Not found | No pay to unlicensed people for licensed work. Act definition not read · NL | Mortgage Brokerages and Brokers Act, from 1 Apr 2025 | None in the Act. Regulations not checked | As the regulations set | New Act. Check the regulations first · PE, YT, NT, NU | No licensing statute found | Not applicable | FINTRAC: at least 5 years | Follow the licensed-tasks table anyway. Confirm before relying on this · LAW · C-NB1 TO C-NB3 · C-NS1 TO C-NS3 · C-NL1 · C-NL2 · F11 · F13 · F14 · NOT LEGAL ADVICE

WHAT TO KNOW AND WHY

New Brunswick: FCNB Guidelines to Rule MB-001 (updated October 2018) say taking mortgage applications or pre-screening referrals requires a licence (C-NB1). The Act text could not be read (C-NB2). Brokerages keep notes of communications on client instructions, disclosure, suitability, material risks and complaints (C-NB3). Nova Scotia: the Act's definition of brokering is unread because the legislature's site was unreachable on 28 October 2026 (C-NS3). Conduct Regulations s.26(1) ban paying an unlicensed person for licensed activity, s.24(2) requires supervision (C-NS1). The Exemption Regulations have no exemption for brokerage clerical staff, and a referrer may pass on only the borrower's name, with written consent (C-NS2). Newfoundland and Labrador: SNL 2023 c M-17.1, in force 1 April 2025; s.2(2) brokering, s.14 licence required, s.3 exemptions only by regulation (C-NL1); s.16 records as the regulations prescribe (C-NL2). The regulations were not read. PEI, Yukon, NWT, Nunavut: no mortgage broker licensing statute was found. Official sites blocked automated reading and secondary sources disagree, so this means "not found", not "there is no law". This has not been confirmed with each government. PIPEDA applies, and organizations in the territories are considered federally regulated (F11). FINTRAC's mortgage sector duties apply, including keeping records at least five years and producing them within 30 days (F13, F14). Following the licensed-tasks table in these places is a LendMate rule.

SECTION: RECORDED CLIENT CALLS

Slide 38 Recording? Confirm, then say it.

ON THE SLIDE

AI notetakers on client calls · SAY THIS AT THE START · LENDMATE RULE · "This call is recorded and transcribed so [purpose]. Is that OK? We can also continue without recording." · Broker confirmed, before or during the call? If not, no notetaker. · Say it's recorded, and why, as narrowly as you can. · Offer a choice. If recording isn't essential, continue without it. · One party's consent makes recording legal under the Criminal Code. Privacy law still needs the notice. · New Brunswick: notes of key client calls must be kept. · LAW · F16 · F17 · C-NB3 · NOT LEGAL ADVICE

WHAT TO KNOW AND WHY

A notetaker only runs on a client call after the broker confirms, before or during the call, that client consent covers it, in the broker's own account (LendMate rule). The script wording is a LendMate house rule; fill [purpose] with the real reason your broker gives, as narrowly as possible. The rules behind it. F17, OPC guidance on recording customer calls (page modified 8 October 2026): the organization must inform the customer that it is recording, state the purpose clearly and narrowly, and in most cases a customer who continues after being told has given implied consent; express consent may be needed for voiceprints or other sensitive information; customers must be given a choice, and where recording isn't integral to the service, alternatives must be offered; businesses that outsource call handling must make sure the third parties follow the same rules. F16, Criminal Code s.184: intercepting a private communication is an offence, but s.184(2)(a) excludes a person who has the consent, express or implied, of the originator or the intended recipient. C-NB3: New Brunswick brokerages keep notes of communications about client instructions, disclosure, suitability, material risks and complaints.

SECTION: WRAP-UP, QUIZ AND SOURCES

Slide 39 Stop. Strip it. Ask your broker.

ON THE SLIDE

When in doubt · Stop. Strip it.Ask your broker. · Stop · Red data or a licensed task? Don’t start. · Strip it · Use placeholders. No private info goes into AI. · Ask your broker · Your broker is accountable. Their answer wins. · LENDMATE RULE · NOT LEGAL ADVICE

WHAT TO KNOW AND WHY

The one slide to remember. It is a LendMate house rule that compresses the training: stop on red data or anything on the licensed-tasks list, strip all private information and use placeholders (LendMate’s rule, stricter than the regulators’ de-identification principle, F2), and ask the broker, because the organization is accountable, not the VA and not the tool (F5, F6).
