LENDMATE VA TRAINING

AI ON CANADIAN MORTGAGE FILES.

What you may and may not do with AI. All provinces except Quebec, plus Yukon, Northwest Territories and Nunavut.

RULES CHECKED 28 OCTOBER 2026 · NOT LEGAL ADVICE

AI can make mistakes. Always check its output. Never let AI do the whole job. · LENDMATE RULE

BEFORE WE START

NOT LEGAL ADVICE.

LAW

Written in a statute, a regulation or a regulator’s guidance. The source ID is in the speaker notes.

LENDMATE RULE

Our own house policy, set by the LendMate team. Where it is stricter than the law, the slide says so.

TOOL POLICY

What an AI vendor says on its own website. These change often, so check them on the day.

Laws change. These rules were checked on 28 October 2026. **When unsure, stop and ask your broker.**

WHY THIS MATTERS

YOUR BROKER CARRIES THE RISK.

The broker stays accountable

Under PIPEDA, an organization is accountable for personal information it sends to a third party for processing. When you process a client's files, that third party is you.

LAW · F6

The data leaves Canada

You work from the Philippines. PIPEDA allows that, but clients must be told their information may be processed in another country.

LAW · F10

The AI is never accountable

"Accountability for decisions rests with the organization, and not with any kind of automated system."

LAW · F5

AI can make mistakes. Always check its output. Never let AI do the whole job. · LENDMATE RULE

WHOSE DATA IS IT?

TWO KINDS OF CLIENT DATA.

YOUR BROKER'S CLIENTS (B2C)

Borrowers and buyers: names, contact details, SIN, IDs, income documents, credit reports, deal details.

- The broker is accountable. You are their processor.
- Used only for the purpose it was collected for.
- Kept confidential, in the places the law says.

LAW · F6 · C-ON5 · C-BC7 · C-AB3

YOUR BROKER'S BUSINESS (B2B)

Our client, the broker: their logins, systems, client lists, pipeline, lender details and internal documents.

- Treated like their clients' data: private.
- Stays in the broker's own accounts and systems.
- Their policy comes first. It can be stricter than ours.

LENDMATE RULE

For both: no private info in any chat app. If something is pasted, sent or shared by mistake, tell your broker straight away.

THE LEGAL PICTURE

NO AI LAW COVERS THIS WORK. YET.

Date	What happened
7 Dec 2023	Canada’s privacy regulators publish principles for generative AI. Guidance, not law.
6 Jan 2025	Bill C-27 dies without Royal Assent. It held AIDA, the proposed AI law.
15 Jun 2026	Bill C-36, a new federal privacy law, is introduced. Now at second reading. Not law.
1 May 2027	OSFI Guideline E-23 starts. It covers AI models at federally regulated lenders, not brokers.

So the rules you follow come from **privacy law** and **mortgage licensing law**.

AI can make mistakes. Always check its output. Never let AI do the whole job. · LENDMATE RULE

THE RULE STACK

FIVE LAYERS. THE STRICTEST WINS.

1. **Federal law.** PIPEDA for privacy, FINTRAC for anti-money laundering, CASL for commercial emails and texts.
2. **Provincial privacy law.** Alberta PIPA and BC PIPA apply inside those provinces.
3. **The mortgage regulator.** Who needs a licence, how records are kept, what ads must say.
4. **Tool settings.** Whose account is it, and is it training on your data?
5. **Your broker's own policy.** It can be stricter than everything above.

LENDMATE RULE · WHEN TWO LAYERS DISAGREE, FOLLOW THE STRICTER ONE

AI can make mistakes. Always check its output. Never let AI do the whole job. · LENDMATE RULE

WHICH PRIVACY LAW

IT DEPENDS WHERE THE CLIENT IS.

Where	Privacy law	Watch for
Alberta	Alberta PIPA	Notice to clients when a service provider outside Canada handles their data
British Columbia	BC PIPA	Under the mortgage rules, lost records must be reported to the superintendent
ON, SK, MB, NB, NS, PE, NL	PIPEDA	No provincial law deemed substantially similar to PIPEDA
Yukon, NWT, Nunavut	PIPEDA	Organizations there are “considered federally regulated”
Data crossing any border	PIPEDA	Applies everywhere, including Alberta and BC

LAW · F11 · F12 · P2 · C-BC5

AI can make mistakes. Always check its output. Never let AI do the whole job. · LENDMATE RULE

WHAT PRIVACY REGULATORS EXPECT FROM AI USERS

FIVE PRINCIPLES TO WORK BY.

1. Only put personal information into a prompt **where authorised**.
2. Use **anonymized or de-identified** information where possible.
3. What the AI **infers** about a person is personal information too.
4. Check AI output is **accurate**, especially when it feeds a decision about a person.
5. The organization is **accountable**, never the tool.

LAW (REGULATOR GUIDANCE) · F2 TO F5

AI can make mistakes. Always check its output. Never let AI do the whole job. · LENDMATE RULE

THE LINE

SOME ADMIN TASKS ARE LICENSED WORK.

LendMate VAs are not mortgage licensed and only do unlicensed tasks. If a task needs a licence, it goes to your broker. Using AI doesn’t change that.

THE LINE

WHAT ONLY A LICENSED PERSON DOES.

Task	Licensed activity in
Advise on whether a particular mortgage suits someone	BC, SK, NL
Assess a borrower on behalf of a lender	ON, BC, MB
Send information about a borrower to a lender	ON, BC, MB
Negotiate or arrange a mortgage	ON, BC, SK, MB, NL, AB
Solicit people to borrow on a mortgage	ON, BC, SK, MB, NL, AB
Take mortgage application information or pre-screen	NB

Only Manitoba's Act exempts clerical staff. Ontario and Saskatchewan say "as an employee or otherwise". **The task decides, not your job title.**

THE LINE, WITH AI

AI DRAFTS. YOUR BROKER DECIDES.

AI may draft, for your broker to review

- Blank deal summary templates
- Blank follow-up templates
- Blank document checklists

No private info goes in. See the traffic light.

Never send it yourself

- Anything that recommends a mortgage or product
- Anything that says a borrower qualifies
- Anything that goes to a lender
- Anything that negotiates rates or terms

LENDMATE RULE · BUILT ON THE LICENSING LAWS ON THE PREVIOUS SLIDE

AI can make mistakes. Always check its output. Never let AI do the whole job. · LENDMATE RULE

THE DATA TRAFFIC LIGHT

CHECK THE DATA BEFORE THE TOOL.

RED · STOP

Any private info: names, contact details, SIN, IDs, credit reports, income documents, deal details.

Never into a chat app. No exceptions.

YELLOW · CONFIRM

AI notetakers and CRM AI, such as GHL and My Broker Pro.

Only in your broker's own account, once your broker confirms that client consent covers it. Otherwise off.

GREEN · GO

No private info: templates, checklists, ad drafts, SOPs, general education.

Any tool. Check every fact before it is used.

LENDMATE RULE · STRICTER THAN THE LAW

AI can make mistakes. Always check its output. Never let AI do the whole job. · LENDMATE RULE

RED DATA · STOP

WHY RED DATA STAYS OUT.

The rule	Source
Regulators: only put personal information into a prompt where authorised. LendMate goes further: none in chat apps.	LAW · OPC · LENDMATE RULE
Income records are “almost always considered to be sensitive”.	LAW · PIPEDA 4.3.4
Ontario brokerages can’t use client information for any other purpose without the client’s written consent.	LAW · O. Reg. 188/08 s.57
BC and Alberta mortgage rules require client confidentiality.	LAW · MSA Rules 38(e) · RECA Rule 44
ID checks follow FINTRAC’s methods. Under the photo ID method, a scan alone doesn’t count.	LAW · FINTRAC
Credit bureau and lender portals need a human to click. AI never pulls, reads or uploads a credit report.	LENDMATE RULE

AI can make mistakes. Always check its output. Never let AI do the whole job. · LENDMATE RULE

YELLOW · NOTETAKERS AND CRM AI

YELLOW MEANS YOUR BROKER CONFIRMED.

1 · THEIR ACCOUNT

Your broker's own account. Never a personal or LendMate account.

LENDMATE RULE

2 · CONFIRMED

Your broker confirms that client consent covers the tool. Never assume it.

LENDMATE RULE

3 · NOTICES

Recorded calls still need the notice and a choice. In Alberta, the broker gives the offshore notice.

LAW · F17 · P2

AI can make mistakes. Always check its output. Never let AI do the whole job. · LENDMATE RULE

GREEN DATA · GO

GREEN STILL NEEDS A FACT CHECK.

The rule	Source
Check every fact AI writes before anyone sees it.	LAW · OPC AI principles
No false or misleading claims to the public.	LAW · Competition Act 74.01
Ontario: public materials show the agent’s name plus the brokerage’s name and licence number.	LAW · O. Reg. 187/08 s.8
Alberta: the brokerage name must be clearly shown.	LAW · RECA Rule 65(b)
Commercial emails and texts need consent, sender details and an unsubscribe.	LAW · CASL s.6
Your broker approves anything before it is posted.	LENDMATE RULE

AI can make mistakes. Always check its output. Never let AI do the whole job. · LENDMATE RULE

PROVINCE RULES AT A GLANCE · 1 OF 2

SAME LINE, DIFFERENT DETAILS.

Where	Law	Staff exemption	Records	Watch for
ON	Mortgage Brokerages, Lenders and Administrators Act · FSRA	None found: “as an employee or otherwise”	6+ years after the term ends	Other uses of client info need written consent
BC	Mortgage Services Act, from 13 Oct 2026 · BCFSA	None for brokerage staff	In BC, brokerage’s control, 7+ years	Report lost records to the superintendent in writing
AB	Real Estate Act and RECA Rules	Assistants allowed, never for licensee-only tasks	At the brokerage’s Alberta office	Clients must know you are unlicensed. Offshore notice
SK	Mortgage Brokerages and Mortgage Administrators Act · FCAA	None found: “as an employee or otherwise”	Period in regulations, not checked	Associates are supervised by a broker
MB	The Mortgage Brokers Act · Manitoba Securities Commission	Yes: clerical duties only	Not checked	Only Act with a clerical exemption

LAW · C-ON1 TO C-ON6 · C-BC1 TO C-BC7 · C-AB1 TO C-AB4 · P2 · C-SK1 TO C-SK3 · C-MB1 · C-MB2

PROVINCE RULES AT A GLANCE · 2 OF 2

ATLANTIC CANADA AND THE TERRITORIES.

Where	Law	Staff exemption	Records	Watch for
NB	Mortgage Brokers Act · FCNB	Not confirmed: Act wording not read	Keep notes of key client communications	Application intake is licensed work
NS	Mortgage Regulation Act and regulations	None in the Exemption Regulations	Not found	No pay to unlicensed people for licensed work. Act definition not read
NL	Mortgage Brokerages and Brokers Act, from 1 Apr 2025	None in the Act. Regulations not checked	As the regulations set	New Act. Check the regulations first
PE, YT, NT, NU	No licensing statute found	Not applicable	FINTRAC: at least 5 years	Follow the licensed-tasks table anyway. Confirm before relying on this

LAW · C-NB1 TO C-NB3 · C-NS1 TO C-NS3 · C-NL1 · C-NL2 · F11 · F13 · F14 · NOT LEGAL ADVICE

AI can make mistakes. Always check its output. Never let AI do the whole job. · LENDMATE RULE

YOUR AI TASK LIST

WHAT A VA CAN DO WITH AI.

Document collection

Blank checklists, blank reminder templates, file naming structures.

Underwriting support

Blank deal templates, blank review checklists, summaries of public lender pages.

Comms and CRM

Blank follow-up templates, tone edits on your own drafts, workflow text and tags.

Marketing and social

Posts, captions, newsletters, ad copy and general education, for broker approval.

Admin and operations

SOPs, agenda templates, spreadsheet formulas, learning a tool.

Every task passes 3 tests

No private info. Not licensed work. A human checks the output.

LENDMATE RULE · NOT LEGAL ADVICE

AI can make mistakes. Always check its output. Never let AI do the whole job. · LENDMATE RULE

TASK WALKTHROUGH 1 OF 5 · FAKE DATA ONLY

DOCUMENT COLLECTION AND FILE PREP.

AI can help

- Turn your broker’s document list into a blank checklist
- Write blank reminder templates with placeholders
- Draft a file naming and folder structure

Stop

- Uploading T4s, NOAs, pay stubs, bank statements or IDs into AI
- Using AI to decide whether an ID is real

The rule

- These are red data
- FINTRAC: a scan alone doesn’t meet the photo ID method
- BC: records stay in BC

TASK WALKTHROUGH 2 OF 5 · FAKE DATA ONLY

UNDERWRITING SUPPORT.

AI can help

- Build a blank deal summary template
- Build a blank file review checklist
- Summarize a lender's public web page

Stop

- Putting borrower data into AI
- Deciding, or telling anyone, that a borrower qualifies
- Recommending a lender or product
- Drafting lender submission notes, or sending a file to a lender

The rule

- Assessing and sending borrower info to a lender are licensed in ON, BC, MB
- Your broker verifies anything AI summarizes

TASK WALKTHROUGH 3 OF 5 · FAKE DATA ONLY

CLIENT COMMS AND CRM.

AI can help

- Write blank follow-up templates
- Improve the tone of your own draft, before client details are added
- Draft CRM workflow text and tags, no contact data

Stop

- Pasting client messages or contact details into a chat app
- Messages that advise on a particular mortgage or negotiate terms
- Commercial emails or texts without consent and an unsubscribe

The rule

- CASL: consent, sender details, unsubscribe
- Alberta: clients must know you are unlicensed
- NB: keep notes of key client calls

TASK WALKTHROUGH 4 OF 5 · FAKE DATA ONLY

MARKETING AND SOCIAL.

AI can help

- Draft posts, ads and newsletters
- Repurpose your broker’s own public content
- Draft general education, every fact checked

Stop

- Any claim you can’t back up
- Ads missing the licence details the province requires
- Real client stories without written consent

The rule

- No misleading claims
- Ontario: name, brokerage and licence number
- Alberta: brokerage name shown
- Broker approves before posting

LAW · F19 · C-ON5 · C-ON6 · C-AB4 · LENDMATE RULE · BROKER APPROVAL

AI can make mistakes. Always check its output. Never let AI do the whole job. · LENDMATE RULE

TASK WALKTHROUGH 5 OF 5 · FAKE DATA ONLY

ADMIN AND OPERATIONS.

AI can help

- Write SOPs and internal checklists
- Draft meeting agenda templates
- Help with spreadsheet formulas
- Explain how a tool works

Stop

- Pasting a client spreadsheet to get a formula
- Internal notes that name a client

The rule

- No private info in any chat app
- Use made-up data when you ask for help
- A human checks the output

AI can make mistakes. Always check its output. Never let AI do the whole job. · LENDMATE RULE

SAMPLE AUTOMATIONS · SHOW ONLY

AUTOMATIONS MOVE DATA.

A workflow isn’t AI, but every step can carry client info to another tool. Three rules before you build one.

1 · TEST FIRST

Build and practise in a test account with fake contacts only.

LENDMATE RULE

2 · NEW TOOL?

Any step that sends client info to another tool needs your broker’s approval first.

LENDMATE RULE · F6

3 · AI STEP?

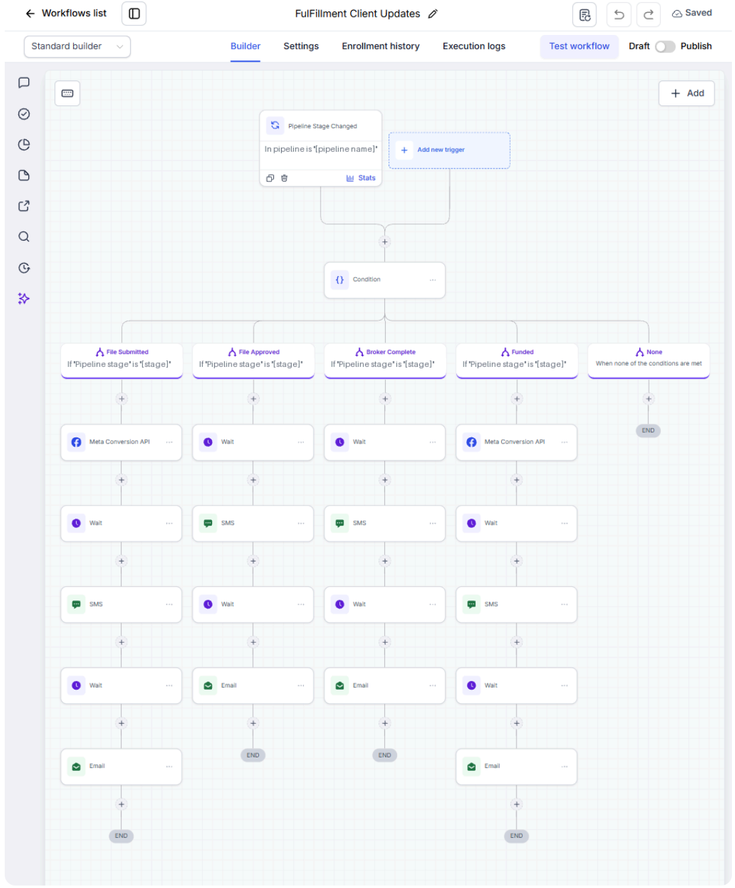

An AI step on client info is yellow: broker’s account, broker confirms.

LENDMATE RULE

SCREENSHOT 1 · LENDMATE GHL WORKFLOW

REAL SCREENSHOT · NAMES REMOVED

FULFILLMENT CLIENT UPDATES.

What the screenshot shows

- **Trigger:** Pipeline Stage Changed, in one pipeline (name removed)
- **Condition:** four branches, File Submitted, File Approved, Broker Complete and Funded. A fifth, None, ends the workflow
- **File Submitted:** Meta Conversion API, Wait, SMS, Wait, Email
- **File Approved:** Wait, SMS, Wait, Email
- **Broker Complete:** Wait, SMS, Wait, Email
- **Funded:** Meta Conversion API, Wait, SMS, Wait, Email

The Meta Conversion API step connects to Meta. Any step that sends client info to another company needs your broker’s approval first. LendMate rule.

AI can make mistakes. Always check its output. Never let AI do the whole job. · LENDMATE RULE

SAMPLE · SIMPLIFIED FROM A LENDMATE WORKFLOW

CLIENT STATUS UPDATES.

Trigger: pipeline stage changed in [Mortgage pipeline] → **Condition: which stage?**

File Submitted
Wait [time]

File Approved
Wait [time]
SMS
Wait [time]
Email

Broker Complete
Wait [time]
SMS
Wait [time]
Email

Funded
Wait [time]
SMS
Wait [time]
Email

No stage matched: the workflow ends. Message wording is on the next slide.

SAMPLE 1 · MESSAGE TEMPLATES

SAMPLE WORDING · WRITTEN FOR THIS TRAINING

PLACEHOLDERS, NOT CLIENT DETAILS.

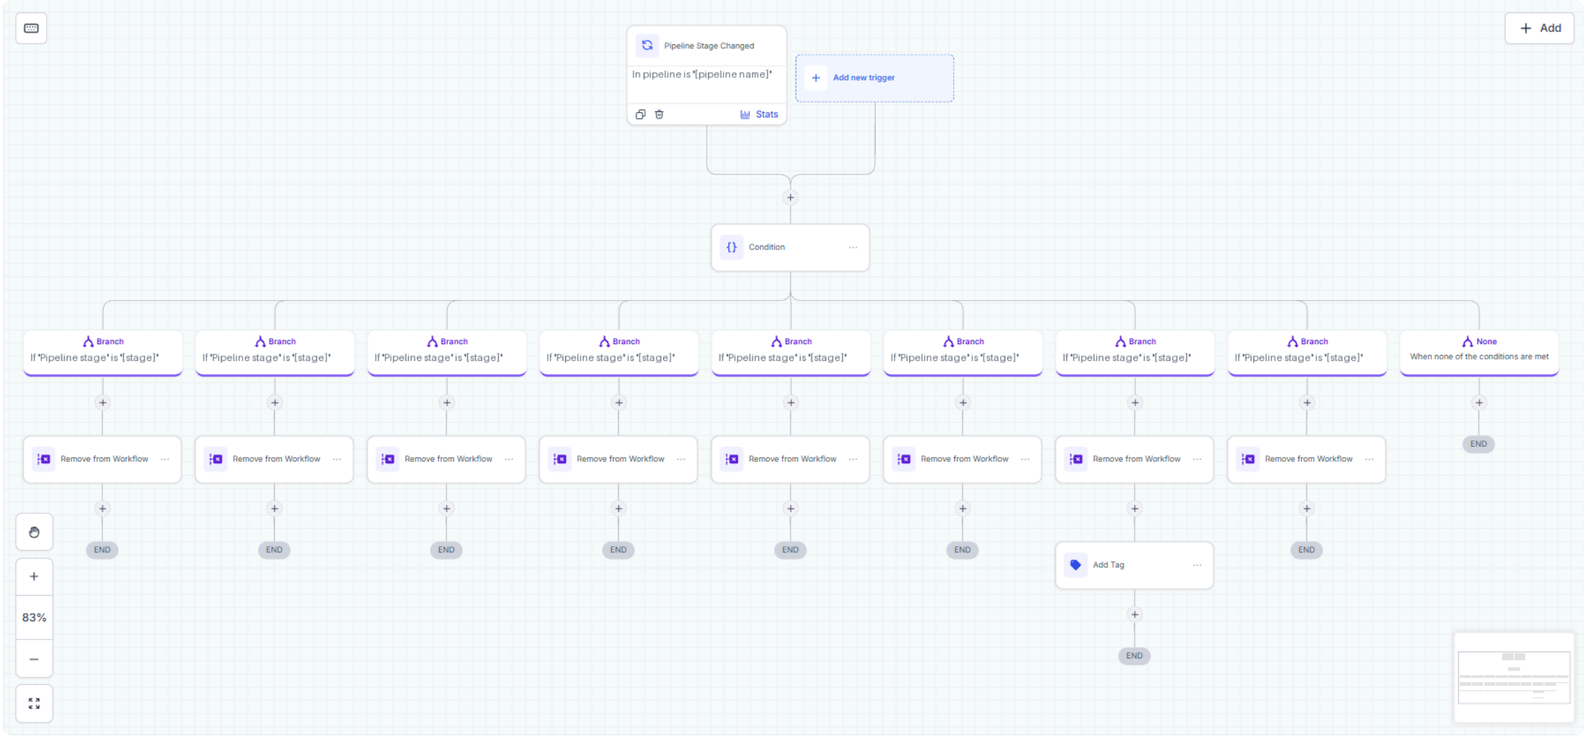

Stage	Sample SMS
File Submitted	Hi [First name], your file has been sent for review. We'll update you as soon as we hear back. [Broker name], [Brokerage name]
File Approved	Hi [First name], good news: your file has been approved. [Broker name] will contact you about next steps.
Broker Complete	Hi [First name], our part of your file is complete. Questions? Reply here or call [phone].
Funded	Hi [First name], your mortgage has funded. Thank you for working with [Brokerage name].

LENDMATE RULE · YOUR BROKER APPROVES EVERY TEMPLATE

SCREENSHOT 2 · LENDMATE GHL WORKFLOW

REAL SCREENSHOT · NAMES REMOVED

REMOVE FROM WORKFLOW, BY STAGE.

What the screenshot shows

- **Trigger:** Pipeline Stage Changed, in one pipeline (name removed)
- **Condition:** eight stage branches and a None branch that ends
- **Each stage branch:** Remove from Workflow
- **One branch:** Remove from Workflow, then Add Tag

None of the steps shown sends client info to another company. Which workflow each branch removes, and what the tag is for, are set by your broker.

AI can make mistakes. Always check its output. Never let AI do the whole job. · LENDMATE RULE

SAMPLE 2 · GHL OR MY BROKER PRO WORKFLO

SAMPLE · SIMPLIFIED FROM A LENDMATE WORKFLOW

CLEAN-UP WHEN THE STAGE CHANGES.

Trigger: pipeline stage changed → **Condition: which stage?**

Each stage

Remove from workflow: [other stage's workflow]

One stage

Remove from workflow, then Add tag: [tag]

No match

End

Set by your broker

Which workflow each branch removes, and what the tag is for. None of these steps sends client info to another company.

SAMPLES 3 AND 4 · ZAPIER AND MAKE

SAMPLE · NOT A LENDMATE WORKFLOW

AI INSIDE AN AUTOMATION, GREEN DATA ONLY.

Zapier · social caption drafter

Google Sheets: New Spreadsheet Row → AI by Zapier: draft a caption → Slack: message to broker for approval

Make · public lender news summary

Make: new post on a lender's public news page → OpenAI module: summarize → Email to broker to verify

No client info goes through either one. A human approves before anything is used. Tools are examples, not recommendations. Check each tool's plan: some AI steps aren't on free plans.

TOOL POLICY · D14 · D15 · LAW · F4 · NOT LEGAL ADVICE

AI can make mistakes. Always check its output. Never let AI do the whole job. · LENDMATE RULE

SAMPLES 5 AND 6 · ZAPIER AND MAKE, NO AI STEP

SAMPLE · NOT A LENDMATE WORKFLOW

NOTETAKER ACTION ITEMS TO YOUR TASK TOOL.

Zapier · meeting follow-up tasks

Notetaker: new meeting transcript → Task tool: create a task → Slack or email: tell the broker

Make · same idea, check the notetaker first

Notetaker: a trigger, if Make has one → Task tool: create a task → Email to broker

Only if your broker confirmed that the notetaker and this connection are OK. Keep tasks plain: an action and a due date, no client names, amounts or file details. The broker reads each task before anyone acts on it.

BEFORE YOU PASTE ANYTHING

THE 5-MINUTE CHECK.

1	**Any private info in what you're about to paste?** If yes, stop.	**LENDMATE RULE**
2	**Is training on your data turned off?** Setting names are on the next slide.	**TOOL POLICY**
3	**Don't rate chats.** A thumbs up or down can send the chat into training, even after you opt out.	**TOOL POLICY**
4	**Where does the data go?** Some tools say: Fathom stores in the US. HighLevel may transfer abroad.	**TOOL POLICY**
5	**Notetaker or CRM AI?** If your broker hasn't confirmed, it stays off.	**LENDMATE RULE**

TOOL POLICY · D1 · D2 · D5 · D8 · RE-CHECKED 2 NOV 2026

AI can make mistakes. Always check its output. Never let AI do the whole job. · LENDMATE RULE

TOOL POLICY · RE-CHECK ON SESSION DAY

CHAT APPS: WHAT EACH VENDOR SAYS.

Tool	Personal plans	Setting to check
ChatGPT	May train on your content unless you opt out	Settings, Data controls: “Improve the model for everyone”
Claude	Trains if you allow it. Safety-flagged chats and feedback can also be used	Privacy Settings: “Model Improvement”
Gemini	With “Keep Activity” on: used for training, some chats reviewed by people	“Keep Activity” off: chats kept 72 hours, not used for training
Copilot	Used for training unless you opt out. Microsoft’s page covers the older app only	Copilot privacy controls

TOOL POLICY · RE-CHECK ON SESSION DAY

NOTETAKERS AND GHL: WHAT THEY SAY.

Tool	Training on your data	Also says
Fathom	Its AI providers can’t train on it. Fathom uses de-identified data for its own models; opt out in My Settings.	All data stored in the United States
Granola	Its AI providers are prohibited from training on it.	Meeting audio is never stored
Otter	De-identifies data, then trains its own models. Its AI providers don’t train on it.	Staff access recordings only with explicit consent
HighLevel	Doesn’t use personal information to train generalized, public AI models.	May transfer data to other countries, including India
My Broker Pro	Privacy policy doesn’t mention AI or training. It names Go High Level and Finmo Lendesk as vendors.	Data location unclear: site says servers in Canada, terms say hosted in the US

AI can make mistakes. Always check its output. Never let AI do the whole job. · LENDMATE RULE

FREE AI TOOLS · LISTED IN NO ORDER

FREE CHAT APPS YOU CAN USE.

Tool	What the free plan includes	Limits, in the vendor's words
ChatGPT	Web search, data analysis, file and image uploads, image creation, existing GPTs	Unlimited everyday text chats. Uploads, images and data analysis have separate limits. Ads may appear in some countries
Claude	Chat on web, desktop and mobile. Web search, file creation, code, memory, Artifacts	"Limited usage every 5 hours and every week"
Gemini	Canvas, Deep Research, image generation	"Standard limits" and a 32k token chat. Heavy features can be unavailable when demand is high
Copilot	Microsoft doesn't list the free features on its pricing page	"Limited free version subject to available capacity and limits"

LENDMATE RULE · FREE OR PAID, SAME RULE: NO PRIVATE INFO

AI can make mistakes. Always check its output. Never let AI do the whole job. · LENDMATE RULE

GET MORE FROM FREE AI

SIX HABITS THAT GET BETTER ANSWERS.

1. **Give context.** Say who it is for and what you want.
2. **Be specific.** Length, tone and format, in plain words.
3. **Show an example** of what good looks like.
4. **Work in steps.** Break a big job up, then ask for revisions instead of starting over.
5. **Respect the limits.** They change without notice. Save heavy features, like Deep Research, for when you need them.
6. **Chat full?** Start a new one and paste only the passage you need. Never move private info to another tool to keep going.

VENDOR PROMPT GUIDES · G1 · G2 · TOOL POLICY · D10 · D12

AI can make mistakes. Always check its output. Never let AI do the whole job. · LENDMATE RULE

WORKED EXAMPLE · PLACEHOLDERS ONLY

WEAK PROMPT. STRONG PROMPT.

WEAK

“Write a follow-up email.”

No audience, no length, no tone, no limits on what it may say.

STRONG

“Write a blank follow-up email template for a mortgage broker to send after a first client meeting. Use placeholders like [Client first name] and [Broker name]. Plain, friendly tone, under 120 words. No advice about any mortgage product and no promises about rates or approval. Give me 2 versions.”

Then **you** fill the placeholders outside AI, check every line, and give it to your broker.

LENDMATE RULE · MADE-UP DATA AND PLACEHOLDERS ONLY

AI NOTETAKERS ON CLIENT CALLS

RECORDING? CONFIRM, THEN SAY IT.

SAY THIS AT THE START · LENDMATE RULE

“This call is recorded and transcribed so [purpose]. Is that OK? We can also continue without recording.”

Broker confirmed, before or during the call? If not, no notetaker.

Say it’s recorded, and why, as narrowly as you can.

Offer a choice. If recording isn’t essential, continue without it.

One party’s consent makes recording legal under the Criminal Code. Privacy law still needs the notice.

New Brunswick: notes of key client calls must be kept.

LAW · F16 · F17 · C-NB3 · NOT LEGAL ADVICE

AI can make mistakes. Always check its output. Never let AI do the whole job. · LENDMATE RULE

WHEN IN DOUBT

STOP. STRIP IT. ASK YOUR BROKER.

Stop

Red data or a licensed task? Don’t start.

Strip it

Use placeholders. No private info goes into AI.

Ask your broker

Your broker is accountable. Their answer wins.

LENDMATE RULE · NOT LEGAL ADVICE

AI can make mistakes. Always check its output. Never let AI do the whole job. · LENDMATE RULE

KEYBRAIN: TASKS AND SOPS, NO PRIVATE INFO.

Question	Answer
What is it?	A workspace where a business owner and their VAs manage tasks, write SOPs and use an AI assistant. You check your tasks and read the SOPs your broker wrote.
What never goes in?	SIN or other government ID numbers, banking or card details, borrowers' financial or identity documents. Its terms say not to enter them. Same line as our rule.
The AI assistant?	Use it like any AI tool: no private info, check what it writes. Its terms say you are responsible for the output.

AI can make mistakes. Always check its output. Never let AI do the whole job. · LENDMATE RULE
